

## Summary of the report

Group 15 takes a poster as the report of their team work. The poster consists of 8 parts, mainly introducing data consolidation and feature selection, it also shows the performance of the 3 models with or without PCA selection. After compare Kaggle scores, it draws a conclusion and makes a prospection of future work.

## strengths of the report

The introduction part is concise and clear.

The performance of model is shown in charts, which is intuitive.

The group compares three models and evaluate PCA method.

## weaknesses of the report

Maybe need more detail about Data Consolidation.

## Evaluation on Clarity and quality of writing

4

In part 3 Features from other datasets line 2 mean should be main.

## Evaluation on Technical Quality

4

## Overall rating:

4

## Confidence on your assessment
