Review on Group 17

1) Summary of the report

   Overall, it's a technically sound report. It's well structured, well commented, and easy to be replicated. It would be more friendly to readers if some simple techniques like bullet points, bolding and underlying could be applied. And it could be improved with more in-depth analysis, which may include comparison with presented work and analysis of practical meaning.

2) Describe the strengths of the report

   a) Further improvement is discussed;

   b) Jupyter notebook file is well structured and commented;

   c) evaluation is appropriate;

   d) The report is clearly written.

3) Describe the weaknesses of the report

   a) Reasoning only presented results of feature importance;

   b) strengths and weaknesses are not well discussed;

   c) no citation/comparison;

   d) no references (formatting problem);

   e) it would be more friendly to readers if bullet points could be used in the report.

4) Evaluation on Clarity and quality of writing (1-5):

   4

5) Evaluation on Technical Quality (1-5):

   4

6) Overall rating:

   4

7) Confidence on your assessment (1-3):

   3
