1. Check single feature correlation as well as multivariable correlation, though no extra data process. Do well in dealing missing value. Use several models.
2. Strengths: Clear, with graph. Nice results
3. Weaknesses: No extra feature engineering mentioned.
4. 4.5 Clear, but something more may should be mentioned eg. which files are used and how to use them.
5. 4.5 results are not bad, but not clearly assess both the strengths and weakness of their approach.
6. 4-a good report
7. 2
